Planters, seeders, grain drills... we have tires for them all. Hoosier Wheel has been making high quality OEM semi-pneumatic and solid tires for over 50 years. We are ready to work with your engineering teams to match your ideal performance and price point. We offer both solid and semi-pneumatic tires as well as steel and nylon rim construction. Our proprietary Ag tire compounds have consistently performed in no-till fields and provided the dependability that farmers can count on.
